PUBLISHED BY
MISSOURI VALLEY COLLEGE.
MARSHALL, MISSOURI.

DEC 6 1917

THE COLLEGE QUARTERLY BULLETIN

Of Missouri Valley College is published by the College for the purpose of disseminating educational and scientific information. It is issued quarterly, in the months of April, July, October, and January, from the office of the College, at Marshall, Mo. The subscription price is fifty cents a year. Address all communications to "Bulletin M. V. C., Marshall, Missouri."

Missouri Valley College,

With its magnificent buildings, and expansive campus, is a monument to the far-seeing devotion and Christian generosity of God's people in Missouri, Kansas, Colorado and Nebraska. Its endowment of more than a HUNDRED THOUSAND DOLLARS is still inadequate, however, for the accomplishment of the high ends of its founding. By order of the General Assembly the endowment will be increased to \$250,000 by February 4, 1910.

Twelfth Annual Catalog.

MARSHALL, MISSOURI.

ANNOUNCEMENT.

This Bulletin contains the essential facts which students and parents need to know concerning the College. An effort has been made to simplify them to the utmost degree possible.

General Purposes.

It is the purpose of the founders and of those in charge of MISSOURI VALLEY COLLEGE to give to the young people of the Cumberland Presbyterian Church, and to such others as may attend, as good undergraduate training as can be had anywhere in the country; and in addition to this, to surround them with such influences as will enable them to pass from the period of irresponsibility of childhood into that of self-controlled manhood or womanhood with the least probability of failure.

DEPARTMENTS.

The *College* proper is the part of the institution for which all the rest exists. It embraces the customary four years' work—Freshman, Sophomore, Junior and Senior. College students are required to have sixteen hours of recitations per week. Lessons are assigned in such a way that about two hours of preparation are necessary, for the average student, for each hour of recitation. In general the lecture method, the text-book method, and the laboratory method are combined in the teaching.

The *Academy* is simply preparatory to the College. It presents a four years' course covering much the same ground as that covered in the best High schools, but the teaching is done by much more efficient teachers and with much better facilities than in any [but the city] High schools. Sixteen recitations (of sixty minutes each) per week are required for the four years. The graduates of properly conducted district schools are ready to enter the Academy.

The departments of *Music* and *Art* have been established for the benefit of those who wish, in addition to their literary work, to have general training in vocal and instrumental music, in drawing, and in the various

kinds of painting; and also for such as wish to make a specialty of these arts. These departments are supplied with facilities as good as any to be had outside the large cities. Their courses are in no wise connected with the regular College work, nor are they in any way recognized as leading to the degrees in the College proper. They have appropriate degrees of their own at the close of a rigorous course.

Entrance Requirements.

Any student who has completed the work of the country schools, or the grammar grades in towns and cities, can enter the institution. If more work than this has been done by the pupil, in a creditable school, a certificate of the grades made in the additional subjects will usually be taken in lieu of a similar amount of our required work. The standing of the student is estimated on the basis of the *amount of good work he has done*, rather than upon advancement in any particular list of subjects. It is thus not necessary that a student be even or regular in order to *enter* school. In order for a student to know exactly where he will stand, he must show just what work has been satisfactorily completed by him, giving his certified grades as vouchers.

[The courses of study in the Academy and College may be found on subsequent pages.]

Entrance to the College Proper.

As has been indicated, a student who has completed the common schools, has pursued a course of work for four years in a good High school, having had therein sixteen full hours of recitation each week (this is equivalent to about twenty-one periods of forty-five minutes, as the divisions occur in many schools), is probably about ready for our Freshman class. We insist that such students shall have completed not less than—

Three years of Latin, five hours per week, for nine months;

Two years of Greek (or German or French), five hours per week for nine months;

Three years of English, five hours per week, for nine months;

Two years of Mathematics, five hours per week, for nine months;

One year of Science (Physics, Chemistry, Zoology, Botany, &c.) five hours per week, for nine months;

One year of History, five hours per week, for nine months.

The remaining hours necessary to make up the sixteen hours per week for four years may be taken from any of the above subjects. For example, a student may have completed four years of Latin instead of three: such will count to his credit just as will extra time in any other subjects.

Articulated Secondary Schools.

There follows a list of those schools whose certified grades (not diplomas) are accepted for the full time in which the subject is studied, in lieu of an equivalent amount of our entrance requirement. Many of these schools do not prepare a student for the Freshman class, but their pupils get full credit for the work they have done, which is all any good school desires. We insist that work in any subject offered shall not be of less than one year's duration.

Continuous Sessions; and Time of Entrance.

It is the present plan of the College to continue in session throughout the year and to divide the year into four terms or quarters. Three of these, the Autumn, Winter and Spring quarters, taken together are just equivalent to the old year of two sessions. Each term is of three (3) school months. Students may enter profitably at the beginning of any quarter. The great majority of students enter with the Autumn quarter (September 5th). New courses suitable for teachers and irregular students begin both with the Spring quarter (February 28th), and the Summer quarter (May 23rd). The calendar for the next fifteen months is as follows:

Spring quarter ends May 23, 1901—Commencement.
1901—1902

- | | | | |
|--------------------------|--------|----------|-------------|
| 1. Summer quarter begins | May 23 | and ends | Aug. 14 |
| 2. Autumn | “ | Sept. 5 | “ “ Nov. 27 |
| 3. Winter | “ | Nov. 28 | “ “ Feb. 26 |
| 4. Spring qr. 1902 | “ | Feb. 27 | “ “ May 22 |

Expenses.

Academic tuition, per quarter.....	\$ 9 00
College tuition, per quarter.....	12 50
Qualitative Analysis, extra, per quarter.....	10 00
Quantitative Analysis, extra, per quarter.....	10 00
Elocution, private lessons, per quarter.....	15 00
Matriculation fee (Academy and College), per quarter.....	3 00
Music (Piano or Voice), per quarter.....	17 00
Music (Violin, Guitar, Mandolin, etc.), per quarter.....	17 00
Music, Pipe Organ, per quarter.....	22 00
Music, Practice on Pipe Organ, per quarter.....	5 00
Music, Blower for Pipe Organ, per quarter.....	9 00
Music, Piano Hire, one hour a day, per quarter.....	3 50
Music, Harmony, in class, three or more, per quarter.....	6 00
Music, Harmony, private, per quarter.....	17 00
Music, History of, etc., taken privately, per quarter.....	3 50
Art (Drawing, Painting, etc.), per quarter.....	12 00
Board, cheapest, per week.....	2 25
Board, best, per week.....	3 50
Board, average, per week.....	3 00
Laundry, about, per week.....	50
Books, per quarter, about.....	5 00
Literary Societies, per quarter.....	1 00

Suppose one is in the Academy and has only literary work (no Music or Art or other extras), then the cost per quarter would be as follows:

Tuition (lowest).....	\$ 9 00
Fee.....	3 00
Books.....	4 00

Boarding (room, food, fire and light), say \$2.50 a week....	30 00
Laundry, say 50 cents a week.....	6 00
Society Dues.....	1 00
	<hr/>
Total, per quarter.....	\$53 00

Or, as follows:

Tuition (Academic), per quarter.....	\$ 9 00
Fee (Academic), per quarter.....	3 00
Books (Academic), per quarter.....	5 00
Boarding (best) (\$3.50 a week), per quarter.....	42 00
Laundry, per quarter.....	6 00
Society Dues, per quarter.....	1 00
	<hr/>
Total cost, per quarter.....	\$66 00

Or, as follows, IN COLLEGE:

Tuition, per quarter.....	\$12 50
Fee, per quarter.....	3 00
Books, per quarter, about.....	8 00
Boarding (average, \$3.00 a week), per quarter.....	36 00
Laundry, per quarter.....	6 00
Society Dues, per quarter.....	1 00
	<hr/>
Total cost, per quarter.....	\$66 50

Or, suppose Music is taken *in addition* to the above; then add \$17.00 for instruction and \$3.00 for piano hire—\$20.00 in all to the above estimates. If Art is taken add \$12.00; and so with other extras. If Music only is taken, then substitute it in the place of Academic or College tuition. Multiply the totals by three in order to see what the expenses for a year will

be. Clothing, confectionery and such like, should not be charged to the College expenses.

Candidates for the ministry and children of pastors are given free scholarships on condition of obedience and diligence. The tuition of such becomes due in case this deportment grade falls below class *two*. No free scholarships are issued for the Summer quarter. All are required to pay the usual matriculation fees. Candidates must furnish certificates from the stated clerks of their Presbyteries as to their standing. Beneficiaries whose tuition becomes collectable on account of low grade in deportment will be *suspended* until tuition is paid.

All tuitions and fees must be paid in advance, at the beginning of the quarter. Students are not admitted to recitation until they produce the treasurer's receipt.

Boarding students in Music are *required* to practice at the College.

The Dormitory.

By the beneficence of friends of the College in 1895, the Dormitory, an imposing three-story brick structure, was erected on the College campus. It contains twenty-four living rooms, eight on each floor, each accommodating two students. In addition, the

basement contains the kitchen, dining-room, coal-room, and the bath-rooms of the Y. M. C. A. Besides there are two trunk-rooms. The building is lighted by electricity. Water is piped into it. The money for erecting this handsome edifice was subscribed by the Presbyteries and individuals of the church. Some of the Presbyteries are *still delinquent*, and should take steps to pay up *promptly*. It was built chiefly for young preachers, but others are admitted.

The club was organized in 1893 as a private enterprise with nine members. It proved quite successful, and has grown until now it has a membership of thirty-seven. The expenses for board, room-rent, fuel, washing and bath rooms have been reduced to a minimum. The total expenses for the year do not usually exceed two dollars and twenty-five cents (\$2.25) per week.

The club is composed of many of the best students of the College, is thoroughly organized, and strict discipline is enforced. Study hours are from 1:30 p. m. to 4 p. m., and from 7:00 p. m. to 12:30 p. m. on the following day; during which time no unnecessary noise is allowed in the building. All boisterous conduct is forbidden. Devotional exercises under the direction of the chaplain are conducted each evening after supper. In fact, all the laws of decency and propriety are enforced, and a premium is placed on gentlemanly conduct. The officers at present are: C. C. Alexander,

president; J. W. Shepherd, first vice-president; A. T. Cory, second vice-president; F. E. Tegler, secretary and treasurer; Charles Caster, chaplain. The club extends congratulations to the management of the institution, thanks to those who have contributed to their present support, and a cordial invitation to new students to enter the Dormitory.

General Information.

The faculty will aim to exercise a parental and moral supervision over the conduct and character of the students. The latter will be held responsible for proper deportment, a decorous intercourse among themselves, a respectful treatment of their officers, a faithful observance of the hours appointed for study and a punctual attendance upon all prescribed exercises of the College. Leave of absence will be granted in extreme cases before the close of the term, but only by permission of the faculty. Parents and guardians are earnestly requested to confer with the faculty beforehand, and to expect such leave only in cases of extreme necessity.

In harmony with the above requirements, the following things are positively forbidden: All disorder in rooms for study, or in the College building; absence from recitation or other enjoined exercises without

previous permission or sufficient excuse thereafter; communication during prayer, recitation or other exercise; social visiting during study hours; all association of the *sexes* except at prescribed periods; injury to College property; the use of intoxicating drinks; the use of tobacco on College premises; all offensive or indecent language or behavior; playing at billiards, cards or other games of chance; visiting saloons; the desecration of the Sabbath, and all other things inconsistent with the utmost propriety of conduct, and, therefore, adverse to the most successful improvement of the students, intellectually and morally.

The literary and other societies of the College are under the control of the faculty. No secret organization will be allowed among the students. No public entertainments shall be given by any society without permission from the faculty, and when such permission is granted all the exercises intended for any entertainment shall be presented to the faculty for its approval as to matter and program before their public delivery. No one who is not in regular attendance at the College can be a member of the literary societies, or take part in the literary exercises of the same. The following pledge will be exacted of each student as a condition of entrance to the College.

I, the undersigned, as a condition of admission as a student in the Missouri Valley College, do hereby declare

and promise, upon my honor and without mental reservation, that I will not join as a member or attend the meetings of any secret literary or social organization, unless the same has been approved by the Faculty of Missouri Valley College.

The penalty for the violation of the rules of the College shall be such as the faculty may see fit to inflict.

A WORD TO PARENTS AND GUARDIANS.

With great emphasis we urge all who send their children to us to be careful about giving them too much pocket money or too great liberty in contracting debts. And they ought to be carefully instructed as to the value and economical use of money. We sometimes have students with a very slight comprehension of economy who, to the disgust of their friends at home, squander with an indiscretion that is hurtful to everybody concerned. There is scarcely a vice that so fatally interferes with study as the lavish and careless spending of money by students at school. We are certain that we can not do those who are at school and those who send their children here a greater favor than to bring this important matter to their notice and to beg of them, both for their own profit and for the better training of the pupils in habits of economy, that they give special attention to this suggestion.

ACCESSIBILITY.

Marshall is accessible from all parts of the country via the Chicago & Alton R. R., or via the Missouri Pacific R. R. It is on the main line of the C. & A. R. R., and on the Boonville branch of the Missouri Pacific R. R. These, with their connections, furnish ample conveniences for reaching Missouri Valley College from all portions of the world. Consult the nearest railroad ticket agent and he will give you all necessary information.

LOCATION.

The College is beautifully located on a commanding eminence, at the city of Marshall, which is the capital of Saline county. The soil in this county is noted for its productiveness, and the inhabitants are distinguished for their thrift. The climate is exceptionally healthful, the air being pure and stimulating. The mean annual temperature, as reported in the tenth census, is 50-55 degrees, the same as Pittsburg, Philadelphia, and New York. This is five degrees cooler than the mean annual temperature of St. Louis, Louisville, and Washington. The annual rainfall is 35-40 inches, five inches less than that of St. Louis, Philadelphia, and New York. Putting these two facts together, it is at once seen that the climate of Marshall is as delightful and healthful as could be desired. In

fact, in point of climate it is equal to the great health resorts of the country, and, in point of beauty of landscape, it is second to none.

THE GYMNASIA,

of which there is one for ladies and one for gentlemen, both situated on the first floor, are fitted up with a sufficient variety of apparatus to afford all forms of needed exercise. Dumb bells, Indian clubs, wands, wall machines, trapezes, traveling rings, horizontal bars, parallel bars, rowing machine, Swedish horse, quarter circle, mats, etc., constitute the equipment. The gymnasias are comfortably warmed and well lighted and ventilated.

THE CAMPUS

is spacious and adorned with about 1,200 evergreen and deciduous trees. The Horticulture Society had its landscape gardener to visit Marshall for the purpose of making a suitable design for the planting, and then the Secretary, L. A. Goodman, Esq., came and personally superintended the work on Arbor Day in 1891.

Ample provision has been made for all forms of

ATHLETIC SPORTS,

such as baseball, football, basket ball, lawn tennis, running and leaping. These are encouraged by the Faculty for the sake of the physical culture of students.

The College has several acres of the campus laid

out as Athletic Grounds. This includes a football "gridiron," baseball "diamond," and tennis courts both clay and cinder. During commencement week one afternoon is given to field sports, when there are contests in running different distances, broad and high jumping, putting the shot, throwing the hammer, and other athletic events.

SOCIAL LIFE.

The student's intercourse with his fellows is under the supervision of the Faculty. Regard is had for the needs of the social nature, but the mingling of the sexes is guarded so as to prevent unwise intimacies and loss of time from study. Most of the students being absent from home, the College authorities take the place of parents so far as possible. In order to encourage a sense of responsibility among the students, an attempt has been made this year to secure student control of the social relations. A court elected by the students has been given jurisdiction.

THE LITERARY SOCIETIES,

of which there are three—the PEARSONIAN, the HOXONIAN, and the BAIRDEAN—have beautiful halls on the third floor, which they have furnished most handsomely and conveniently, and at large expense. The membership in each is composed of both sexes, this mingling of the sexes being found decidedly advanta-

geous both in regard to the order and the efficiency of the societies.

RELIGIOUS LIFE.

Each student is required to attend Sabbath School and Divine Service once every Sabbath. Failing to attend, he must provide an excuse from the President at roll-call on Tuesday.

In addition to this requirement, the first hour's recitation is opened each day with prayer by the members of the Faculty in their separate rooms; and at noon all students assemble in the Chapel for public worship. Attendance upon Chapel exercises is required.

THE CHRISTIAN ASSOCIATIONS.

In the moral and religious life of the College, the Young Men's Christian Association and the Young Women's Christian Association hold positions of influence and responsibility. Standing, as they do, for the advancement of the spiritual life, and having in their membership the best students of the College, they have the opportunity of influencing greatly the life of every student. Their work is carefully planned to this end. Both Associations conduct devotional and personal workers' Bible classes, and, besides a Sunday afternoon meeting, both hold daily services of twenty minutes' length. All are well attended.

Required and Elective Work.

In making up the sum total of work necessary for the completion of any course, certain subjects must be pursued. These are known as required studies. They are such as the Faculty have agreed each of the graduates of the school should have. Enough work in addition to this must be chosen from other courses offered to make out the requirement for a degree; these are known as electives. It is the policy of the school to make about two-fifths the work elective. This gives the student the opportunity of following a little more closely the subjects which especially stimulate him.

Requirements for Graduation.

THE CLASSICAL COURSE (A. B.)

The conditions for graduation with the degree of "Bachelor of Arts," are the completion of one hundred and five hours of required work and eighty-seven hours of elective work, making a total of one hundred and ninety-two hours per week for one quarter, on the terms specified under the various schools. The basis of the estimate is *one* quarter of twelve weeks. The average work done by a student is sixteen hours a week. At the rate of sixteen hours per week per

quarter the course would be completed easily in twelve quarters. An exceptionally able student might accomplish eighteen hours per week, and thereby finish his course in less time. As a rule, we do not recommend any student to take more than sixteen hours of work per week. No student will be allowed to take more than this amount of work except by a vote of the faculty. All laboratory hours will count for *half* their full time.

The Freshman Class.—Students who are in the act of completing forty-eight hours' work as prescribed will be entitled to standing as Freshmen.

The Sophomore Class.—Students who are in the act of completing ninety-six hours of prescribed work will be entitled to standing as Sophomores.

The Junior Class.—Students who are in the act of completing one hundred and forty-four hours of prescribed work will be entitled to standing as Juniors.

The Senior Class.—Students who are in the act of completing one hundred and ninety-two hours of prescribed work will be entitled to standing as Seniors.

Advanced Standing.—Students who have been in attendance at any of the colleges represented in the Cumberland Presbyterian Inter-College Association, or in the Missouri College Union, or at any institution of like grade, will be admitted to advanced classes on the following conditions: (1) Provided they furnish prop-

erly accredited grades from such colleges as to the number of hours completed on specified subjects; and (2) provided they are properly accredited morally. All other students will be examined on such subjects as they wish credit for.

Graduates in Art.—Students who have completed one hundred and ninety-two hours of prescribed work in the College, having passed all examinations successfully, and who pay ten dollars into the treasury of the College, will be entitled to graduation with the degree of Bachelor of Arts, and will receive the diploma of the College to that effect.

THE PHILOSOPHICAL COURSE (PH. B.)

The conditions of graduation with the degree of "Bachelor of Philosophy" are the completion of one hundred and twenty hours of required work and seventy-two hours of elective work, making a total of one hundred and ninety-two hours of work per week for one quarter, on the terms specified under the various schools.

The completion of forty-eight hours' work entitles the student to standing as a *Freshman*; ninety-six hours, a *Sophomore*; one hundred and forty-four hours, a *Junior*, and one hundred and ninety-two hours, a *Senior*.

The conditions for advanced standing and for

graduation are the same as in the Classical Course, to which the student is referred for further information.

THE ENGLISH COURSE (B. L.)

NOTE:—This *degree* has been discontinued. Hereafter, until further notice, those desiring it will be given a certificate upon completion of the Sophomore studies. A fee of five dollars will be required for the certificate.

THE NEW COURSES OF MUSIC STUDIES.

To fulfill the announcement made in the catalogue of 1896 and 1897, we offer a complete four years' college course of study, with two preparatory grades in Voice Development, Piano, Pipe Organ, Violin Playing and Theory. In Piano Playing there is offered a carefully prepared Post Graduate course extending over a period of two years.

CLASSICAL MUSIC COURSE (MUS. B.)

The conditions for graduation with the degree of "Bachelor of Music" in either Voice, Piano, Pipe Organ and Violin are, first, the completion of the four years' course in voice or instrument as formulated; second, the prescribed requirements in Theory and Composition; third, the graduation in the Academy of Missouri Valley College, English course, including Mathematics (or equivalent); fourth, the successful

performance in public recital by each applicant, and fifth, the payment of ten dollars into the College treasury.

Students who have completed the Sophomore year in either Voice, Piano, Pipe Organ or Violin, and are compelled to stop their study of music, may receive, if they so desire, a certificate from the Faculty stating that two years of study have been successfully terminated in the Classical Music Course.

INSTRUMENTS AND SUBJECTS STUDIED.

Pipe Organ	Canon
Cabinet Organ	Fugue
Piano	Musical Form
Voice	Instrumentation
Violin	History of Music
Guitar	History of Pianoforte Music
Harmony	History of Song
Counterpoint	History of the Organ and Organ
History of the Violin and its Makers.	Players.

Class Honors.

It is the universal custom in colleges to award special honors to specially gifted and specially faithful students. "First Honors," in the Senior Class giving the right to the Valedictory on Commencement day, and "Second Honors," entitling to the Salutatory ad-

dress. This is frequently unsatisfactory as only *one* can be accorded "first honors," and only *one* "second honors." Where natural gifts and class work have been nearly equal, the awards are very arbitrary and often unjust. It is proposed in this college to give all an equal opportunity. The basis of the awards will be the grades of the students for the *whole year*, in *recitation and deportment*. Students whose *average* grade is 85 to 91 will be awarded *Cum Laude* rank. Those whose average grade is 92 to 96 will be awarded *Magna Cum Laude* rank, "Second Honors." Those whose average grade ranks above 96 will be awarded *Summa Cum Laude* rank, "First Honors." This places every student upon his record, and discriminates against none, as all the members of the class may obtain first honors, if all strive for it and are successful in their deportment and work. These awards are made at the close of each year in June to all classes in the College—Freshman, Sophomore, Junior and Senior; and also to the Senior class in the Academy.

In the general class grading a somewhat different method prevails. Students, with respect to the merit of individual studies, are divided into five classes; and they receive their reports, not by the decimals, but by classes. 97-100 is Class 1; 92-96 is Class 2; 85-91 is Class 3; 75-84 is Class 4; 0-74 is Class 5. The last is the class of failures.

The Laboratories.

There are four laboratories in the College, fitted up according to the requirements of the departments they represent. These are the Biological Laboratory, the Physical Laboratory, the Chemical Laboratory, and the Land Surveying and Draughting Room.

THE CHEMICAL LABORATORY

has a good stock of apparatus in a room on the third floor, especially devoted to this purpose. Chemicals and instruments are furnished for the use of the students in their work, and every facility is afforded for acquiring a practical knowledge of the subject through actual experiment. Individual desks are provided for twenty-four students in each section, which is as many as one teacher can do justice to at one time. There are generally two sections in the class in General Chemistry.

THE PHYSICAL LABORATORY

adjoins the Chemical Laboratory and is supplied with tables, apparatus, and such conveniences as are necessary for individual work in Dynamics, Acoustics, Heat, Light, and Electricity.

THE BIOLOGICAL LABORATORY

is in a suite of rooms on the second floor. These are

supplied with proper furniture for the practical study of biological subjects, so that students have excellent facilities. Special provision is made for microscopic work, several fine German microscopes having been imported for this purpose.

MUSEUM.

The College is again brought under obligations to Mrs. A. M. Drennan, Tsu Ise, Japan, for a most valuable collection of marine and mineral specimens, and for a considerable and well selected collection of Japanese antiquities. Mrs. Drennan has been a thoughtful friend of the College. The Rev. and Mrs. J. C. Worley assisted in preparing and forwarding the cases containing the collections.

In August, 1898, the Rev. M. B. Irvine, of St. Joseph, Missouri, sent, in the name of his daughter Pearla, a collection of geological specimens of great value. This is the most important addition yet made to the College Museum. Miss Pearla had been a student in Missouri Valley College and had greatly endeared herself to all by her gentleness, industry, and mental alertness. She died on the day that the collection reached the College. Her life had been beautiful as her death was triumphant. Her name will be associated henceforth with this department in which she took chief interest.

The College Library.

ROBERT THOMAS KERLIN,

Librarian.

The Library contains nearly seven thousand volumes and many valuable pamphlets, covering the fields of history, language, literature, economics, science, theology, and philosophy. All these volumes and pamphlets are classified according to subjects, so that the reference and consultation may be as convenient as possible.

The Library is primarily designed as a literary laboratory for individual study and private research. Here students may investigate the various subjects assigned to them in the several departments of the College, or may privately study subjects in which they may be interested. During 1900, according to actual census, the Library was used for these purposes by sixty-eight students a day, three hundred and forty students a week, thirteen hundred and sixty students a month, and thirteen thousand, six hundred students during the whole scholastic year. From these figures can be concretely seen the value and usefulness to the College of the Library. This census clearly shows to the patrons of the Library the practical worth of their

gifts and benefactions. The census for 1901 has not been taken yet, but when taken will show a much higher per cent. of usage.

The Library is open for College students from 10 a. m. to 12 m., under the supervision of members of the Faculty, and for all the students from 1:30 p. m. to 4:30 p. m., under the care of proctors.

Special Music and Art students may avail themselves of the advantages of the Library by paying the regular fees.

Many governmental documents and books of great worth to the several departments of the College have been received through the kindness of the Hon. F. M. Cockrell, Washington, D. C., the Hon. James Cooney, Marshall, Missouri, Hon. J. T. Blair, Maysville, Missouri, Hon. Ed. T. Orear, Jefferson City, Missouri, and Hon. Matt. Hall, Marshall, Missouri. Other valuable gifts in the form of books and pamphlets have been received from Mrs. Ezra K. Squier, Marshall, Missouri, Rev. H. R. Crockett, D. D., La Plata, Missouri, A. C. Stewart, Esq., St. Louis, Missouri, the Hon. Melvin Dewey, Albany, New York, Prof. Conway Macmillan, University of Minnesota, the Rev. J. C. Worley, Tsu Ise, Japan, the Massachusetts Board of Lunacy and Charity, Boston, Massachusetts, and the American Unitarian Society.

The gift of Mr. and Mrs. George H. Althouse of

one thousand dollars for an alcove in memory of their departed son, Alex. Denny Althouse, has been invested and installed. Mr. and Mrs. Althouse had a special alcove built, of beautiful and chaste design, for the reception of these books. It is a department library and contains only books of maximum utility. The percentage of use is exceptionally high, because of the modernness of the books. He being dead, yet speaks through this valuable collection of distinguished authors.

On the reading tables may be found the leading literary, scientific, religious, professional, and college magazines and papers of the day. Below is inserted the list of periodical literature taken by the Library:

Atlantic Monthly.	Harper's Weekly.
Harper's Magazine.	Scientific American.
Century Magazine.	Scientific American Supplement.
Scribner's Magazine.	The Cumberland Presbyterian.
North American Review.	Kansas City Journal.
Forum.	Kansas City Times.

 August 13—Summer Quarter Ends.

Until someone comes to the relief of the College, there will be great embarrassment in the maintenance of the professorship of BIBLICAL INSTRUCTION.

As a proper celebration of the Centennial of the Cumberland Presbyterian Church, the friends of the College will contribute to its endowment \$150,000.00 on or before February 4, 1910.

3 0112 105856030

A CHAPEL, sufficiently large to accommodate the patrons and students at public exercises, is greatly needed. This would be a worthy donation for permanent good.
